

CIVIC Foundation empowers marginalized communities through volunteer-driven initiatives, collaborating with universities, local government and administration to promote knowledge, innovation, inclusive growth, and social responsibility for a fairer, sustainable society.

CIVIC Foundation offers consultancy service for government, NGOs, and private sectors, providing evaluations, impact assessments, and strategic guidance to enhance decision-making, performance, and promote social development, human rights, and institutional growth.

CIVIC Foundation upholds lifelong learning, fostering curiosity, environmental adaptability, and self-employment. It has established Community Learning Centers (CLC) and collaborations with educational institutions to provide non-formal education, literacy, and skill development, supporting knowledge-based, inclusive growth and improved life.

# CIVIC Foundation since 2008 with legal recognition

## > Quality Assurance Mechanism

CIVIC Foundation maintains a rigorous Quality Assurance (QA) mechanism to ensure accuracy, credibility, and global-standard excellence in every assignment. Our QA system includes multi-stage review, evidence-based validation, expert oversight, and strict adherence to ethical and professional guidelines. Each deliverable undergoes technical scrutiny, data triangulation, and editorial refinement to maintain integrity and reliability. Continuous improvement, stakeholder feedback, and international best practices guide our approach, ensuring that all research, evaluations, and consultancy outputs meet the highest standards of quality and accountability.

# About Dedicated Subject-Matter Specialists

CIVIC Foundation is a multidisciplinary consulting and research organization offering evidence-based solutions across agriculture, education, health, governance, infrastructure, environment, and social development. With a strong pool of 53 subject matter specialists and a dedicated team of in-house professionals, the organization delivers high-quality research, monitoring, evaluation, and policy advisory services for government, NGOs, and development partners.

## Agriculture and Rural Development

CIVIC Foundation's Agriculture and Rural Development cluster brings advanced expertise in agricultural economics, rural livelihood improvement, animal nutrition, and socio-economic assessment. The team applies decades of academic and applied research experience to support agricultural policy, enhance productivity, and design sustainable rural development programs aligned with national priorities.

## Health and Public Health

The Foundation's health team specializes in clinical medicine, epidemiology, hospital management, infectious disease control, and behavior change communication. Their combined research and policy-level experience guides effective public health programming, monitoring and evaluation, and health system strengthening across national and community contexts.

## Economics and Public Policy

The Foundation's economics team provides strong analytical capacity in macroeconomics, development policy, poverty reduction, food security, remittance, globalization, and climate-responsive planning. With long-standing experience in national planning processes, the experts ensure evidence-based policy formulation, program evaluation, and strategic economic analysis for sustainable development.

## Education and Social Development

CIVIC Foundation offers comprehensive expertise in curriculum development, teacher training, CPD policy, education management, and qualitative research. Its social science specialists bring decades of experience in gender issues, indigenous studies, social demography, community development, and program evaluation, enabling well-rounded interventions in education and social sectors.

## Governance, Law, and Administration

CIVIC Foundation's governance and administration experts contribute extensive experience in public policy analysis, institutional management, regulatory reform, and strategic leadership. Their work supports evidence-driven governance strengthening, administrative capacity development, and improved service delivery for public institutions and development actors.

## Engineering, Infrastructure, and Water Resources

The Foundation's engineering cadre provides technical excellence in civil, structural, irrigation, transportation, and water resource engineering. The team delivers project planning, feasibility assessment, design, implementation support, and evaluation, ensuring sustainable, cost-efficient, and climate-resilient infrastructure development solutions.

With its multidisciplinary expertise, strong research infrastructure, and long-standing experience working with government agencies, NGOs, and development partners, CIVIC Foundation delivers robust project design, implementation, monitoring, evaluation, and policy advisory support. The organization is recognized for its methodological rigor, professional integrity, and commitment to development excellence.

## Environment and Climate

CIVIC Foundation's environmental specialists offer proficiency in biodiversity conservation, climate change adaptation, ecological modeling, and environmental impact assessment. They contribute to national and international projects, supporting sustainable natural resource management and climate-resilient planning through scientific research and policy advisory services.

## Statistics, Population, and Data Science

The statistics and demography team at CIVIC Foundation ensures methodological rigor in survey design, monitoring and evaluation, data quality assurance, and statistical analysis. Their experience includes large-scale socio-economic surveys, demographic assessments, and research methodologies essential for evidence-based program design and decision-making.
